

Winston's Story of Hope

Five-Minute Mission Moment for Children

Big Idea: God cares for people through skilled, compassionate people who serve in Jesus' name.

1. Gather the children

Say: Today, we are meeting Winston, a boy in Kenya who loved helping his mother in their garden and going to school. Then, very suddenly, Winston became so weak that he could not walk, lift his hands, or swallow.

2. Tell the story

Winston's mother was frightened, but she kept searching for help and praying.

Winston's mother was frightened, but she kept searching for help and praying. At an MBF partner hospital, doctors and nurses were ready to provide the special care he needed. They worked day and night to help him breathe and grow stronger. Counselors listened to his mother, and a pastor prayed with her so she would not feel alone.

Little by little, Winston regained his strength. Today, he is back in school and able to help his family again.

3. Ask a question

Where do you see God's care in Winston's story?

4. Pray together

Dear Jesus, Thank you for being with Winston and his mother when they were afraid.

Thank you for doctors, nurses, counselors, pastors, and hospitals that care for people. Please help children who are sick and families who feel alone. Help us share Your compassion and remember that our lasting hope is found in You. Amen.
